"Beowulf"
Seamus Heaney
Introduction to Beowulf

Beowulf is the longest surviving Old English poem. It survives in a manuscript usually dated to the eighth or early ninth century, though the action is set in Scandinavia, and the poem is chiefly concerned with the Geats (inhabitants of southern Sweden), Danes and Swedes. It falls into two main sections, ll. 1-2295, which describe young Beowulf's defeat of two monsters, Grendel and his mother, at the request of King Hrothgar, and ll. 2300-3182, in which an aged Beowulf, now King, defeats a fire-breathing dragon but is mortally wounded and dies.

This coursepack includes three short excerpts from the poem: Beowulf's description of Beowulf's funeral (ll. 2247-2295), the scene in which Grendel attacks Heorot, and his hand-to-hand combat with Beowulf. The excerpts are set in the context of the poem's history and its place in the history of English literature. The poem is a masterpiece of Old English poetry, and its story is one of a warrior who saves the world. The Action of Beowulf

Beowulf opens with a description of the origin and history of the Scylding dynasty, tracing its descent down to Hrothgar, who builds Heorot, a great hall. But the sounds of rejoicing anger a monster, Grendel, and one night he kills thirty sleeping men. These attacks recur for twelve years, during which no man can safely sleep in the hall. Beowulf, nephew of Hrothgar, king of the Geats, resolves to come to the aid of Hrothgar. He sails with fourteen warriors and, despite initial suspicion, is welcomed to Heorot. Hrothgar accepts Beowulf's offer to cleanse Heorot. The Danish feast with the visiting Geats and Beowulf's bravery is questioned by a Danish linenman, Unferth. Beowulf promises to conquer or die.

That night, the Danes and Beowulf's men fall asleep. Beowulf alone is vigilant. Grendel arrives at Heorot, devours a Danish warrior, and seizes Beowulf. The two wrestle bitterly. Beowulf eventually tears off Grendel's arm and Grendel retreats, mortally wounded. In the morning, many of the warriors follow the trail of Grendel's blood to a mere. A scop recites a lay about Sigemund and Hreanod. Hrothgar praises Beowulf's victory. At a celebratory feast, Beowulf receives generous rewards and a scop narrates a lay.

The night of the feast, Grendel's mother enters the hall, intent on revenge. She carries off Æschere, a favorite thane of Hrothgar. Beowulf is again summoned. With a company of Danes and Geats, Beowulf immediately heads to the mere. He plunges into the water, reaches the bottom and is dragged by Grendel's mother to her cavern, where she has the
